

Beginner Sewing – South Side

This is your opportunity to learn how to sew from scratch or develop and build on your existing sewing skills!

Class 1 – Requirements

- Sewing machine in good working order
- Instruction manual, power cord and foot control
- Paper, pen/pencil and measuring tape
- We will have introductions, speak about the notions required, go over the expected projects and take personal measurements. We will also review the use of your sewing machine and examine some basic need-to-knows!

Class 2 – Requirements

- You will bring your basic notions, patterns, and prepared fabric. On this day we will fit your pattern to your body, cut it out of your fabric, and transfer markings to the cut-out pieces.

Class 3, 4 & 5 – Requirements

- You need your sewing machine (in good working condition, with manual and all attachments). We will proceed to sew up your project(s) by following the pattern guideline.
- Voila – you will now have a garment that fits you and you will be launched to continue a life-time of useful sewing!
