

Free Motion Applique **Supply List**

Required supplies:

- Images supplied with supply list
- Quilting cotton fabric, one piece at least 13½x7¼" for flowers background (two, if you are making the finished bags), scraps for supplied images
- Black and white cotton thread
- Fabric glue stick
- Sewing machine, in good working order
- Free motion foot (open toe or clear preferred)
- Applique scissors
- Fabric scissors
- Personal cutting station (rotary cutter, small cutting mat, appropriate size rulers. Personal stations help to maintain social distancing.)
- Personal pressing station (travel iron, preferably with steam capability, and small pressing mat. A pressing roller will not suffice for this class. Personal stations help to maintain social distancing.)
- 0.25m fusible stabilizer (Totally Stable or similar)
- Fabric marking pen that will show up on all your fabrics (I like chalk pencil for darks and Frixion for lights)
- Black fine tip marker that can write on a page protector (Permanent or washable. Permanent will prevent smudging during use, while washable will allow for the page protector to be reused)
- Clear page protector sheet (I will bring some, so don't go out and buy any if you don't already have some)

Notes:

If you have any questions about the supplies needed for the class, I am at the north store most days. Give me a call there and I will be happy to answer your questions!

Please be respectful and turn your phones off, or at least to vibrate and take any necessary calls outside the classroom at your own risk of falling behind.

See you soon!

Bizz
